Portal

This database provides access to art and architectural history scholarship by making newly-released and born-digital publications as well as key backlist and out-of-print titles on a wide variety of subjects more broadly available and more widely discoverable through deep tagging on images and text, a robust image search that directs users toward relevant publications, and an interactive online reader tailored for highly illustrated works. The platform also permits professors to create course packs for students. The collection includes content from other university and museum publishers (Yale University Press, Art Institute of Chicago, The MIT Press, Harvard Art Museums, Yale University Art Gallery).
