Picking a Paper Topic

News

- news.google.com
- [Lexis](#) & [Factiva](#) have thorough news archives

The screenshot shows the Google News interface with a search for 'covid'. The search bar at the top contains 'covid' and has a search icon on the left and a close icon on the right. Below the search bar, there are navigation tabs: Home, For you, Following, News Showcase, U.S., World, and Local. The main content area is divided into two sections: 'News about COVID' and 'News about COVID-19 vaccines'. Each section contains several news articles with their respective logos, titles, and snippets. The 'News about COVID' section includes articles from Los Angeles Times, THE HILL, and CNN. The 'News about COVID-19 vaccines' section includes articles from CNN and The Washington Post. The interface is clean and modern, with a light blue background and clear typography.

Existing Scholarship

- Look at existing articles from relevant journal articles (law or another discipline) to see if the author(s) suggest other topics of exploration.
 - See what the author(s) says is outside the scope of the article or need to be explored in more depth.
 - Often mentioned in introduction or conclusion.

Literature Review

What is a lit review?

- A survey of books, scholarly articles, and any other sources relevant to a particular issue, area of research, or theory.
- Helps you formulate your thesis and locate your arguments within the larger field of study.

Reliable Sources

- Evaluate sources for:
 - **Authority** – author is identified, reputable, credentialed
 - **Objectivity** – fairness, lack of bias
 - **Accuracy** – provides references to sources, verifiable
 - **Scope** – relevant to your topic and argument
 - **Currency** – may vary by topic, but make sure you know the current state of thinking in your field (even if it's rooted in older writings)

Constitutional Commentary • Summer 2007 • 24 Const. Comment. 291 • Jack M. Balkin • 337 Citing References

In his famous critique of Roe v. Wade, John Hart Ely remarked that if a principle that purportedly justifies a constitutional right "lacks connection with any value the Constitution marks as special, it is not a constitutional principle and the Court has no business imposing it." Criticisms of Roe have generally proceeded precisely on this ground:...

Virginia Law Review • April, 1983 • 69 Va. L. Rev. 405 • John A. Robertson • 307 Citing References

Women in the United States began their long struggle for reproductive freedom with the birth control movement of the mid-nineteenth century. The United States Supreme Court's contraception and **abortion** cases marked a victorious end to one phase of that struggle. By making a woman's decision not to conceive or bear a child a constitutional right,...

- Narrow by language, region, or date
- Search a specific website or domain (e.g. .edu or .gov)

The screenshot shows the Google Advanced Search page. At the top left is the Google logo. Below it, the text "Advanced Search" is displayed in red. The main section is titled "Find pages with..." and contains five rows of search criteria, each with a corresponding input field:

- all these words: [input field]
- this exact word or phrase: [input field]
- any of these words: [input field]
- none of these words: [input field]
- numbers ranging from: [input field] to [input field]

Below this section, the text "Then narrow your results by..." is followed by six rows of filters, each with a dropdown menu:

Generative (Gen) AI

How do Gen AI tools work?

- Gen AI tools that produce text use large language models (LLMs) to simulate conversations.
- LLMs are trained on the internet but are not a search engine by themselves.
- LLMs predict what each word of a response should be based on training.

How do Gen AI tools search?

- A gen AI tool can use a process called retrieval augmented generation (RAG) to couple an LLM with a search engine.
 - RAG works by turning a user's prompt into a search query. The LLM is then supposed to use the results of the query when producing its response.
 - The goal of RAG is to allow the gen AI tool to access sources of information beyond its training data, which may be proprietary or more current.

Strengths of Gen AI for Research and Writing

- Pattern Recognition
- Large vocabulary
 - Conversational (some tools)
- Summarization

Weaknesses of Gen AI for Research and Writing

- Confidence
 - You don't know what you don't know and neither does gen AI.
- Training limited in scope (content and time)
 - Or quality of connected search engine/ database
- Inherent bias for training sources
- Hallucinations

Gen AI in Academic Writing

- Disclose what tool you used and what you used it for.
- Ask ahead of time if you're not sure whether you should or should not use a tool.

Note-Taking Tools & Techniques

Why good note-taking is important

- Bolster your argument
- Avoid inadvertent plagiarism
- Save yourself time and trouble when creating citations

What to look for in a tool

- Reference manager
- Citation support for Bluebook style
- Organize and annotate PDFs, webpages, and other digital content
- Fits your research style--something you will use!!

Note-taking apps

Document AND citation management

EndNote™
zotero

Typical features include:

- Free or premium upgrade
- Web, client, mobile apps
- PDF storage & annotation
- Cloud & local storage
- Web content capture
- Citation style (“bibliographic utility”)

Citing the best source

- Don't rely on Source A to tell you what Source B says – go back to the original
 - Don't cite Scholar A to tell your reader what Scholar B argued
 - Don't cite a book or an article to tell your reader what a case held
 - Don't cite a case to tell you what the statute says
