A MESSAGE FROM THE DIRECTOR

Dear Colleagues,

The Office of Sponsored Programs is pleased to share with you the 2018-2019 Annual Report where you will find the remarkable accomplishments of the USD research and creative works community. Our faculty and students have come together to solve problems, to be challenged and to change our world— for the better. The reward for this hard work came in Spring 2019 when USD’s Carnegie Classification was conferred as an (R2) institution with “high research activity.” USD continues its efforts to further develop a local and global reputation as a university that facilitates research.

The Office of Sponsored Programs continues to work with the campus research community while maintaining USD’s Envisioning 2024 Strategic Plan of setting the standard for an engaged, contemporary Catholic university where innovative changemakers confront humanity’s urgent challenges.

I am grateful for the opportunity to work with faculty, staff and students who are committed to making the world a better place. The Office of Sponsored Programs will continue to provide expertise in proposal preparation and submissions, negotiations, post award non-financial award management and award compliance, while collaborating with our campus community.

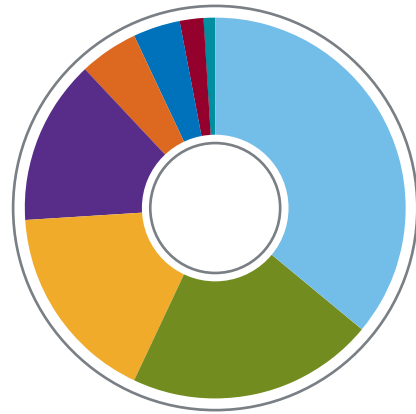

Sincerely,

Traci L. Merrill, CRA
Director, Office of Sponsored Programs

PROPOSALS

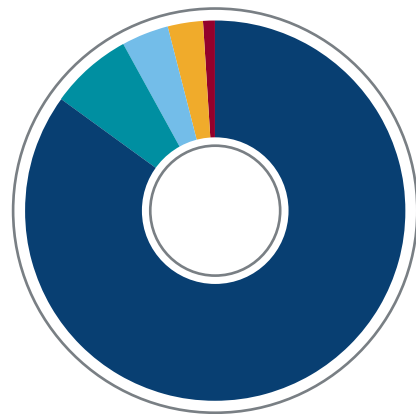

129 proposals valued at \$33,643,010

DOLLARS BY SCHOOL

- College of Arts and Sciences: 12,514,379
- Shiley-Marcos School of Engineering: 7,037,441

ABOUT US

Key Services Provided

OSP's primary and most visible mission is to serve the University community in the successful pursuit of external funds to support research and campus programs. Our office collaborates with faculty through every step of the pre-award process to submit highly competitive proposals. Including but not limited to:

- Identification of external funding opportunities
- Detailed development of every element of the proposal and budget
- Compliance review to ensure requirements put forth by USD and external sponsors are met

OSP participates as members on the following USD committees in order to provide perspective and expertise:

- Compliance Oversight Committee
- Institutional Review Board
- Intellectual Property Policy Task Force
- Research Council

Education and Outreach

New Faculty Guidance

Special efforts are made to welcome new faculty to USD and provide an introduction to pre-award services. In addition to attending the New Faculty Orientation and giving a brief introduction to OSP, our office provides a two-hour workshop on how to get started submitting grant proposals at the University. During the workshop new faculty learn the ins-and-outs of grant submissions and have an opportunity to engage with OSP staff.

Faculty Professional Development

OSP recognizes the need to invest in faculty and their research goals. In May 2019, OSP provided tuition funds for a faculty member interested in further developing their grant writing skills, to attend a two-day grant writing workshop. The workshop was presented by the City of San Diego Corporate Partnerships & Development and Grant Writing USA.

Student Outreach

The University recognizes the importance of educating and preparing students on the grant proposal development process. OSP presents in a number of graduate classes on topics including identifying funding, introduction to proposal development, and the submission process.

Research Team

One of the primary responsibilities of OSP is to stay up-to-date on many legal, governmental, organizational, and sponsor regulations and guidelines that affect compliance within a research enterprise. For this reason, OSP staff members participate in a variety of professional organizations in the field of research administration. OSP is currently a member of the following organizations:

- American Council on Education
- Cayuse Customer Advisory Board
- Inter-Mountain University Research Administrators
- National Contract Management Association
- National Council of University Research Administrators
- National Organization of Research Development Professionals
- Research Administrators Certification Council
- Society of Research Administrators International
