Timeline

Terminology

Information Architecture: structure of a site; navigation flow and how content is organized

Identity: different visual components and features that help define the School of Business and its various departments

Style Tile: a set of design elements that create a cohesive digital presence such as fonts, colors, icons and buttons

Data-driven: qualitative and quantitative data that informs our decisions in Information Architecture, Content Creation, and Design

If you make decisions based on opinion,
you will go off the rails.
